ICEMULE

ICEMULE combines serious cooling performance with the portability of a backpack. Their soft-sided coolers are leak-proof, easy to carry, collapse for storage, use a zipper-free roll-top closure, and float when properly sealed. From beaches and boats to golf, camping, tailgates and travel, ICEMULE goes where people go.

ICEMULE makes **the cooler you always bring.**

keeps ice for the long haul
thick foam walls and a roll-top seal lock cold in longer than any competing soft cooler

a cooler that fits your life
straps on your back keeps everything cold

rolls flat and goes anywhere
roll it down when empty fits in a closet, a car trunk, or your carry-on

no sweating
water-resistant shell with zero exterior condensation
